

3" Replacement Carriers

& Solid Links

A wedge operation fuse carrier for direct replacement of 3" (76 mm) porcelain carriers used extensively in underground link-boxes, feeder pillars and other LV fused equipment.

Produced from our own formulation of DMC glass reinforced polyester for additional durability and tracking resistance.

Available in Grey or Blue.

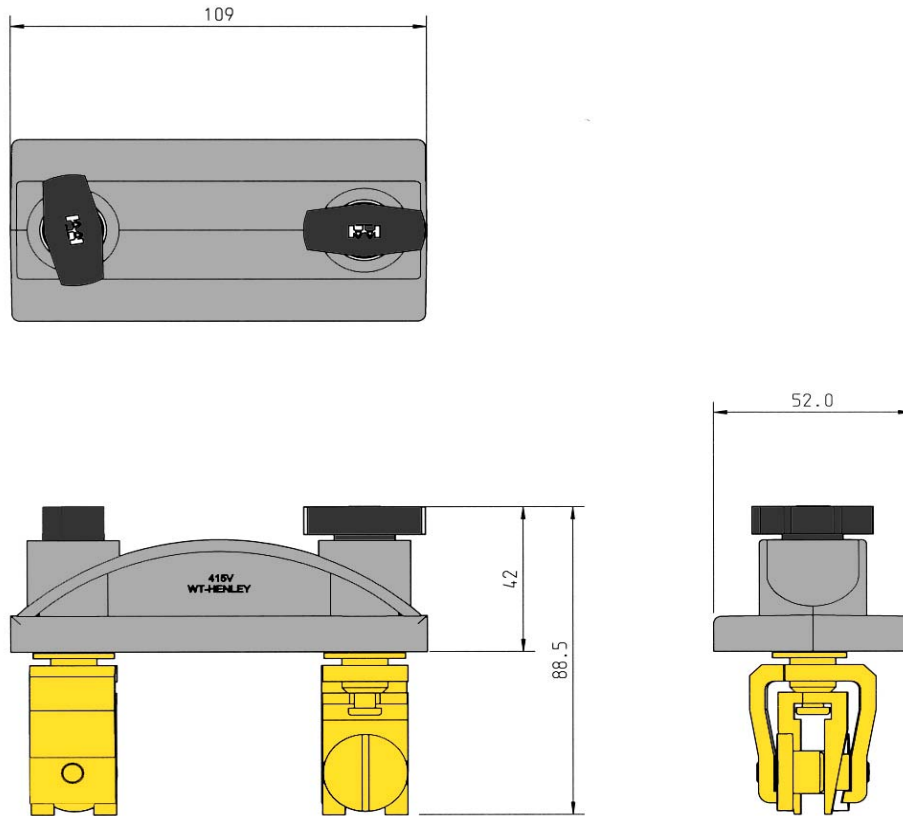

- **Manufactured from DMC glass reinforced polyester.**
- **For use with 3" or 76 mm J-Type fuse links.**
- **Solid Links available**

A subsidiary of TT electronics plc
